

Technology for Remedial Education

- A consistent and reliable approach
- Streamlined course delivery
- Built in modular placement system
- 100% compatibility between placement and remedial series
- Module placement instead of course placement
- Module diagnostics
- Accurately captures student needs
- Personalized study plan for self-remediation
- Module Homework, Quiz, Practice
- Variety of highly engaging targeted learning resources
- Real time progress reports and Analytics
- Unparallel support
- Most cost effective

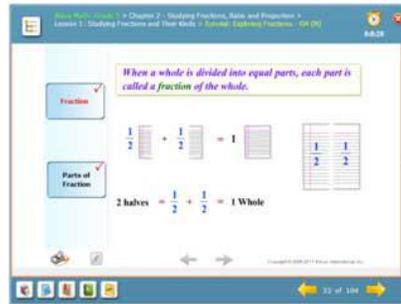

Design Elements

Philosophy

This platform is designed in response to the growing demand for a technology that is 100% compatible with guidelines and approaches prescribed by NCAT to address the issues with remedial Education. It is founded on sound principles to not only enhance instructional and learning experience but also deliver academic results. The technology comes with two most popular modular format and also offer great flexibility to customize and adopt any format an institution likes to implement. The technology also comes with 24/7 quality technical and strategic implementation support to make this initiative a complete success.

www.educosoft.com

Format

- *Modular*
- *Module controls*
- *Random/sequential access*
- *Layered within module*
- *Course wise/series*

The study plan is built based on the assessments taken. Only module final and graded assessments are considered for building a study plan.

1. Take an **assessment** (homework/quiz) and then return to this page to view your study plan.
2. The module marked with **(✓)** is completed and mastered.
3. The module marked with **(U)** is currently active and you need to take assessments and work on the tutorial in it.
4. Study the tutorials in the section/objective marked with **(?)** [Review Tutorial](#)

[Show all Modules](#) | [Show what I need to review](#)

Module / Section / Objective	Total Qs	Correct Qs	Score/10	Time Spent	Actions/Tests
Math0000 Pre diploma/Math0000 Pre Degree					
Module 1: Introduction to Real Numbers and Algebraic Expressions					Review Test
1.1 Equalities and Inequalities					Section Tests
1.1.1 Properties of Equality	1	0	0%	00:46:24	Review Tutorial
1.1.2 To use the Inequality Symbols	1	0	0%	00:42:40	Review Tutorial
1.1.4 To use of the Properties of Inequality	1	1	100%	00:20:53	Review Tutorial
1.2 Operations on Real Numbers					Section Tests
1.3 Properties of Real Numbers					Section Tests
1.3.1 Properties of Real Numbers	2	0	0%	--	Review Tutorial
1.3.2 Distributive Property	2	2	100%	--	Review Tutorial
1.4 Simplifying Algebraic Expressions					Section Tests

Content

- *Questions: MC,FR,..*
- *Assessments*
- *Interactive Tutorials*
- *Digital book*
- *Video lectures*
- *Skill sharpening modules*
- *Ability to add external resources*

Module Completion

Start Date: [] End Date: [] Go

* Note: Modules displayed in green boxes are course or Diagnostic or Prerequisites. Total students registered in this section: 10

Module	Students	Attendance	Module 1	Module 2	Module 3	Module 4	Module 5	Module 6	Module 7	Module 8	Module 9
1. Arithmetic	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
2. Fractions	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
3. Decimals	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
4. Percentages	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
5. Algebraic Expressions	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
6. Linear Equations	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
7. Quadratic Equations	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
8. Functions	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
9. Statistics	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
10. Probability	100	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%

Module Flow

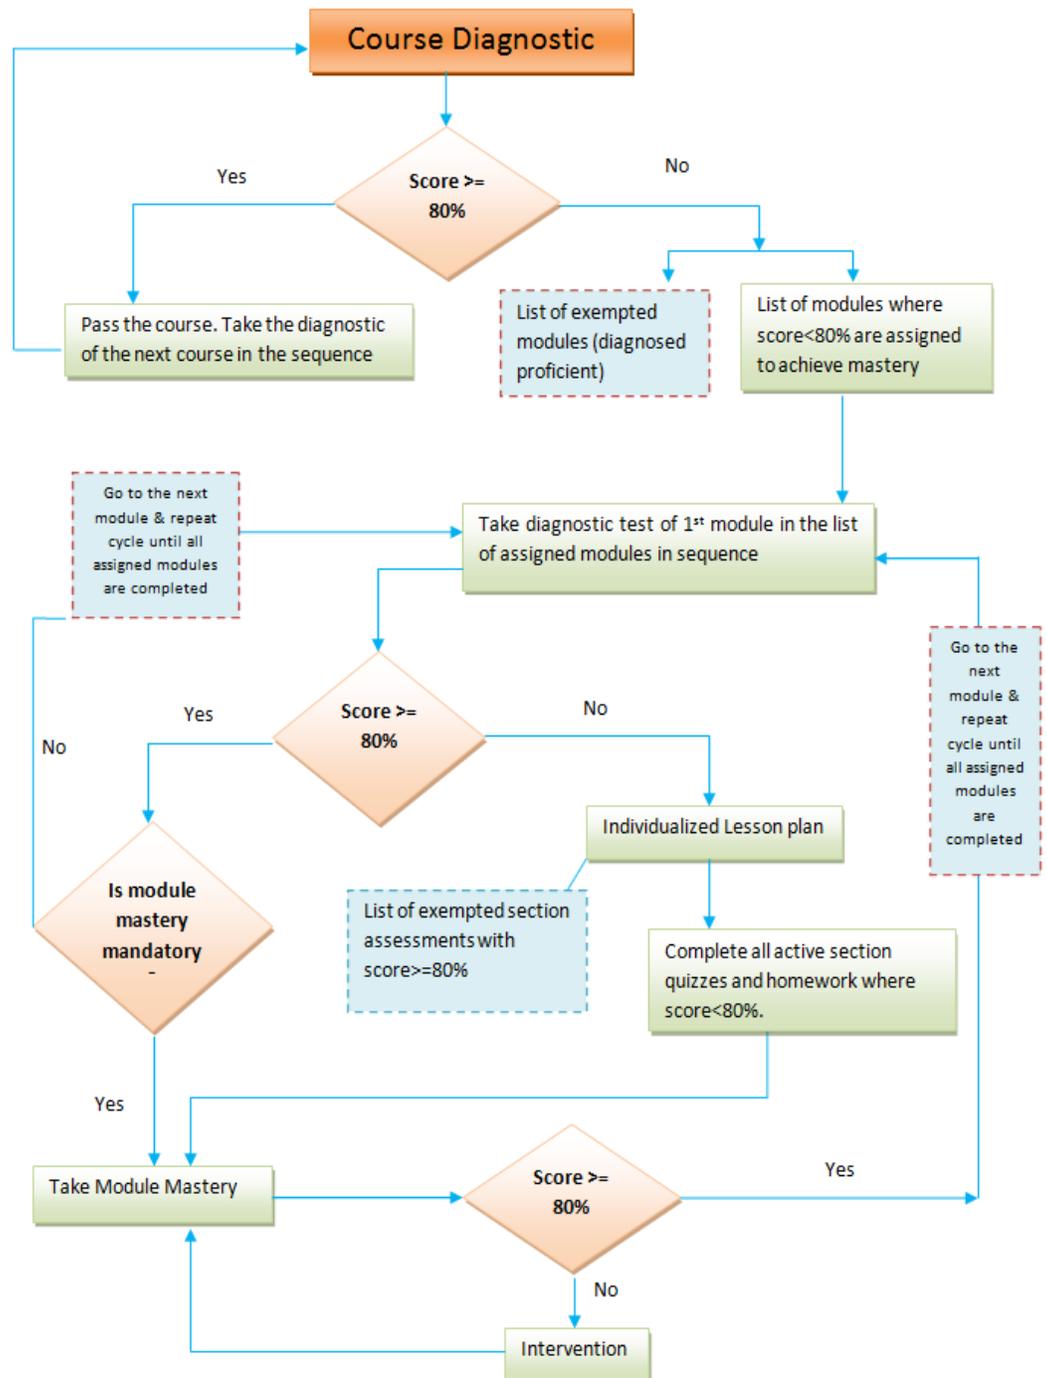

- *Defined path to diagnose and achieve module mastery*
- *Standard and Custom mastery criteria*
- *Random/sequential access*
- *Intervention points*
- *Decision points*

An effective and fast-track pathway to remedial success

The Technology

Web based
 Multi browser support
 Multi OS support
 Mobile device compatible
 No download necessary
 Intuitive design, easy to navigate
 All integrated
 High performance
 Customizable look

Powerful Features and Content

Features

- Digital Content
- Assessment
- Course authoring
- Performance reports
- Grade book
- Productivity tools
- Study path
- Collaboration Tools

SmartGrade book

- Unlimited category
- Auto attendance grading
- Grade reports
- Flexible weights
- Reuse across multiple section.
- Import/export

Course Diagnostic

- *A real test mode that assesses student's proficiency in every topic defined in the entire modular remedial series.*
- *Places students in modules instead of the entire course based on performances*
- *Students don't spend time on modules they are found proficient*
- *Significantly reduces the length of course and time for smart students*

Highly engaging learning resources

- *Media rich tutorials with animation*
- *Problem solving through algorithmically examples*
- *Algorithmically generated multi mode skill sharpening practice modules*
- *Video lectures*
- *Mass enrollment and Time saving all-integrated instructional tools*
- *Reporting and analytics*
- *Integration with campus information systems*
- *Centralized control via master section*
- *Auto replication of section settings, resources*
- *Collaboration tools*
- *Access to entire remedial series, no wait*

Module Diagnostic

- *A real test mode that assesses student's proficiency in every topic defined in the module.*
- *Students don't spend time on topics they are found proficient*
- *Gives students a chance to prove module mastery*
- *Generates study plan based on student's performance in diagnostics*
- *Student can determine concepts where they need improvement*
- *Study plan guides students to right resources for self-remediation*

Module Mastery

- *A real test mode that assesses student's proficiency in every topic defined in the entire modular remedial series.*
- *Reinforces what they learnt from module tutorials, homework and quizzes.*
- *Can be taken multiple times based on campus policy*
- *Can be administered on campus or online based on campus policy*
- *Option for manual intervention after repeated failure*

An all-integrated LMS that works for all stakeholders

INSTRUCTOR

- *Absolutely no learning curve*
- *Easy access to student current status; attendance, activities, module completion, and pace*
- *Monitor students study plans and progress*
- *Control lecture topics by date*
- *Helps decide lecture topics based on overall class progress.*
- *Easy attendance entry*
- *Interactive, media rich Lecture notes*
- *Automatic assessment grading*
- *Automatic attendance grading*
- *Automatic activity time grading*
- *Automatic forum grading*

STUDENT

- *Dashboard for quick glance at classes, assessments due, attendance status, unread announcements.*
- *Auto reminder for assessment due*
- *Clear and comprehensive personalized study plan that guides and leads to module mastery*
- *Real-time progress report to adjust pace and progress*
- *Interactive highly engaging tutorial with dynamic illustration*
- *Algorithmically generated skill-sharpening and practice platform*
- *Video lectures on each topics*
- *Digital text books*
- *Uninterrupted access to entire remedial series*

ADMIN/CAMPUS COORDINATOR

- *Course compilation & deployment at the click of a button*
- *Auto generation of module assessments*
- *Magic master section and Export master section content, policies to multiple instructors*
- *Centralized control of features lock/unlock from master section*
- *All instructor has the same assessments, same grade book, same settings, same policy*
- *Enforce integrity, consistency across all sections*
- *Educo extends support to perform most of the admin tasks on request.*
- *Centralized summary and drilldown real-time progress report on each section, each student, and each module.*
- *Absolute visibility to student's current status; attendance, activities, module completion, and pace.*
